---

A few days ago a patch for the Store content was released. Here's the list of fixed bugs:

- Updated objects to properly display snow and frost in winter with The Sims 3 Seasons installed.
- Updated vehicle rigs to support water/snow FX from tires in inclement weather with The Sims 3 Seasons installed.
- Updated fences to display the correct level of snow thickness in winter with The Sims3 Seasons installed.
- Unlocked all Store purchased mailboxes for use in "buydebug" mode.
- Fixed a compatibility issue with the Galactic Simball Arcade and the Atomic Jack Planet Attack Pinball Machine.

You can download the update (if you haven't done so yet) via the game launcher.
